

Nelson Jhon Gil Pari

Software Developer

Lima, Peru | nelsonjhongp@gmail.com | 982 363 343 | linkedin.com/in/nelsonjhongp | github.com/nelsonjhongp

Summary

Tenth-cycle Software Engineering student seeking internships in software development.

I have contributed to web and desktop projects using **TypeScript**, **React**, **Next.js**, **Node.js**, **PostgreSQL**, **Python**, and **SQLite**, including pre-professional experience and continued collaboration on an ERP project.

Experience

Pre-professional intern and ERP RIPNEL collaborator, Tejidos y Confecciones RIP-NEL S.A.C. – Lima, Peru Feb 2026 – present

- Contributed to gathering and validating ERP functional requirements aligned with the company's operational processes.
- Designed and prototyped interfaces in Figma, and collaborated on database review, functional validation, and support for module development.
- Continued contributing to the evolution of the system, working with **React**, **Next.js**, **Node.js**, **PostgreSQL**, and Supabase.

Education

UTP Universidad Tecnologica del Peru, Undergraduate student in Software Engineering – Lima, Peru Mar 2021 – present

- Currently in the tenth cycle

Selected Projects

RIPNEL Platform Feb 2026 – present

ERP MVP focused on inventory, sales, pricing, and internal transfers.

- Web application with a **Next.js** frontend, **Node.js** + Express backend, and **PostgreSQL** database on Supabase.
- Worked with explicit SQL and a modular technical structure.

Metrion May 2026 – present

Local desktop application for monthly control of purchases, sales, taxes, and operational closings.

- Built with **Electron**, **React**, **TypeScript**, and **SQLite**, without depending on cloud services.
- Local persistence, form validation, and a workflow oriented to real operational use.

Nejigiku Transcriber Apr 2026 – present

Local Windows tool focused on audio and video transcription using on-device processing.

- Integration of **Python**, PySide6, FFmpeg, and faster-whisper.
- Desktop interface, persistent configuration, and batch processing.

Technical Skills

Languages: **TypeScript**, JavaScript, **Python**, Java, SQL

Frontend: **React**, **Next.js**, HTML, CSS, Tailwind CSS, Figma

Backend and data: **Node.js**, Express.js, **PostgreSQL**, Supabase, **SQLite**, MySQL

Tools: Git, **Electron**

Spoken languages: Spanish (native), English (technical reading)

Additional Training

- Tutor STEAM - Algorithmics, UTP (2024)
